Kathleen Wynne, Premier of Ontario  
VIA – Email

Dear Premier Wynne,

Please be advised that the Council of the Municipality of Bluewater passed the following motion at their Council meeting on February 16, 2016:

Moved by Councillor Zimmerman, seconded by Councillor Hill that:

Whereas Ontario's growing and aging population is putting an increasing strain on our publicly-funded health care system;

And Whereas since February 2015, the Ontario government has made an almost 7% unilateral cut to physician services expenditures which cover all the care doctors provide to patients – including cuts to programs which are specifically designed to act as incentives for physicians to practice in rural areas:

And Whereas the decisions Ontario makes today will impact patients' access to quality care in the years to come and these cuts will threaten access to the quality, patient-focused care Ontarians need and expect:

And Whereas Ontario is experiencing a growing rural population as retirees move to the countryside;

And Whereas many rural municipalities in Ontario have formed physician recruitment and retention committees and strategies to deal with the reality of physician retirements and shortages;

And Whereas rural areas in Ontario are already at a distinct disadvantage in recruiting family physicians due to a number of factors;

Now Therefore Be It Resolved that the Council of the Municipality of Bluewater hereby requests that the Minister of Health and Long Term Care reinstate incentives for physicians to practice in rural areas of Ontario, and that the minister return to the table with Ontario's doctors and work together through mediation-arbitration to reach a fair deal that protects the quality, patient-focused care Ontario families deserve;

And Be It Further Resolved that copies of this resolution be sent to the Premier of Ontario, the federal and provincial Ministers of Health, the Ontario College of Physicians and Surgeons, and all municipalities in Ontario. Carried.

Re: DeCew House Heritage Park

---

To the Members of the Board:

As Mayor of the City of Thorold and on behalf of Thorold City Council, I am sending this letter to ask your consideration to designate the DeCew House Heritage Park in Thorold, Ontario as a National Heritage Site. The DeCew House, built in 1808, was of significant importance during the War of 1812 as it was the temporary garrison of Lt. James Fitzgibbon, who is credited for securing the surrender of the American soldiers during the Battle of Beaverdams; it is also the location to which Laura Secord made her famous journey to inform the British of the impending attack.

It is my understanding that the 40-acre park on which the DeCew House currently sits was at one time slated to be designated as a National Heritage Site; however it did not come to fruition. It is of note that in preparation for the War of 1812 Bicentennial, the City of Thorold completed substantial work on the remains of the house, which was destroyed by fire in 1950, as well as the surrounding grounds. The DeCew House Heritage Park was the site of the bicentennial celebration and re-enactments.

With the announcement of funding available from the Federal Government to celebrate the 150<sup>th</sup> anniversary of Canada, it is our hope that the Government of Canada and the Historic Sites and Monuments Board of Canada will recognize the value of the DeCew House Heritage Park and believe it worthy of a heritage site designation in addition to the restoration of the house to its former glory.

Re: Climate Change Action Plan

Please be advised the Council of the Municipality of Chatham-Kent at its regular meeting held on May 30, 2016 endorsed the following resolution:

WHEREAS any policy to move Ontario residents from affordable natural gas to more expensive energy sources would create an unmanageable burden on household and municipal budgets;

AND WHEREAS the rising costs of electricity in Ontario are already forcing families and local governments to choose between electricity bills and other basic necessities / services. A move to electric heat would add an additional \$3,000 annually to home heating costs and the impacts on municipal buildings would be even greater;

AND FURTHER any move by the provincial government to force Ontario industry and business away from natural gas to more expensive electric power options will have devastating consequences on the local economy as employers will relocate to other jurisdictions with more competitive energy choices;

THEREFORE BE IT RESOLVED THAT the Municipality of Chatham-Kent strongly urges the Government of Ontario to reconsider any policy or strategy within the forthcoming "Climate Change Action Plan" that would force rural residents and businesses to replace the most affordable energy option available, natural gas, with more expensive options;

AND FURTHER THAT this resolution be circulated to all other municipalities in Ontario asking for their support by passing a similar resolution.

If you have any questions or comments, please contact Judy Smith at 519-360-1998 Ext # 3200.
